Authorization for this examiner's amendment was given in a telephone interview with Robert L. Maier on July 18, 2005.

The application has been amended as follows:

**In the claims:**

Claims 1-10, 13, 16, 17, 20-25, 27, 28 and 31-35 are cancelled.

In claim 29, last line, "user preferences." has been changed to --user preferences, and wherein said menu is customized based on said user preferences.--.

2. The following is an examiner's statement of reasons for allowance:

The closest prior art, Stoel (US 5,905,492) teaches an audio/video distribution system providing video on demand programming and interactive services to subscribers (e.g. an apartment). Through an interactive session with on-screen menus, a subscriber selects a video on demand program (such as a movie, video game, interactive service or premium pay per view programming). The system headend allows access by the subscriber to interactive menus and to the program or service selected by instructing the interdiction field unit to unjam (or "deinterdict") the channel carrying the menus, programming and interactive services to the subscriber. Stoel fails to anticipated or render the following limitations obvious: "...selecting one of a plurality of Assignable Computing Devices, said selected Assignable Computing Device being used to generate a menu listing available program material"; "wherein said menu listing available program material is generated for display in a web browser and is customized based on the user preferences" as recited in claims 11, 14 and 18; "said Site Management Subsystem can assign at least one Assignable Computing Device...said menu including at least HTML code, and wherein said menu is customized based on user preferences" as recited in claims 26 and 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
